

ROSSOBLU

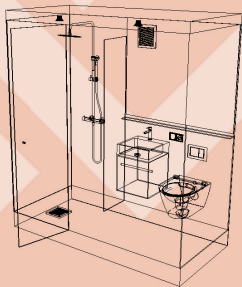

CUBE is a complete bathroom with a shower, washbasin, and toilet. CUBE naturally fits into the space. With its sleek dimensions of 120 x 210 cm, CUBE is compact yet spacious. Its light and modern design allow it to harmoniously blend into any environment.

Cube

The solution for small spaces

CUBE always serves its purpose in places where there is actually no space for a bathroom. Stylish, modern, and inconspicuous, it can be installed within a few hours.

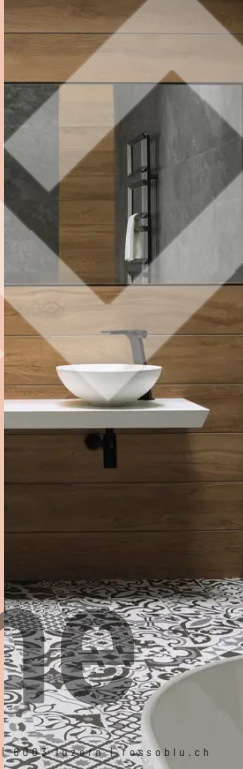

ROSSOBLU

ROSSOBLU

With a wide selection of modular system components, your new bathroom can be created in just a few days. This minimizes revenue loss and maximizes guest satisfaction.

Primio

Simple, modular, individual...

Our wall, floor, and ceiling elements are modularly designed. With this structure and complete factory integration of lighting, plumbing, and ventilation technology, a PRIME bathroom can be installed minimally invasive within 4 days.

ROSSOBLU

ROSSOBLU

Our individual solution for high and highest demands. Tailored to the design of your house, we design, produce, and install your new wet rooms. Fast, reliable, and cost-effective.

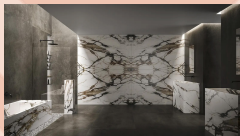

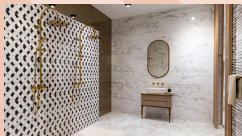

ROSSOBLU

Unique

the one and only...

Krion is thermally deformable and can be shaped into any form. When combined with high-quality fittings, it creates absolutely individual and unique spaces. The factory integration of lighting, plumbing, and ventilation technology reduces installation time to a minimum.
